Mechanical Engineering January 2023

In monetary terms, **the volume of engineering product** production in the Republic of Kazakhstan in January 2023 increased by 42% over the same period in 2022, reaching 211.9 billion tenge.

The **IPV** of engineering products in January 2023 was 112.1% higher than in January 2022. The following volume index indicators were met in the sectors:

Index of Physical Volume electrical equipment production (87%).

Index of Physical Volume of other vehicle production (48.5%),

Index of Physical Volume of machinery and equipment not included in other categories (105.3%).

Index of Physical Volume of computer, electronic, and optical equipment (129.6%), cars, trailers, and semi-trailers (127.5%).

Engineering product **exports** increased by **92.1%** in monetary terms from January to December 2022 compared to the same period in 2021, **totaling USD 3,758.5 million**, including re-exported products (telephones, turbojet engines, aircraft, etc.). All sectors have experienced significant growth in nominal terms. *10.7 times* the height, Other television reception equipment, *6.5 times* the color image, Portable digital computing machines weighing no more than 10 kg, containing at least a central data processing unit, a keyboard, and a display, Vehicles with a piston internal combustion engine with spark ignition and a cylinder capacity greater than 1500 cm³, but less than 3000 cm³, by 78%.

In monetary terms, engineering product **imports** increased by **21%** from January to December 2022 compared to the same period in 2021, totaling **USD 19,872.6 million**. Telephone sets (the share of goods in total imports was - (8.1%), Bodies for motor vehicles (7.4%), Vehicles with an internal combustion engine with a cylinder capacity of more than 1500 cm³, but not more than 3000 cm³ (6.5%), and Aircraft and other aircraft with an empty curb weight of more than 15,000 kg (6.2%) dominate the import structure.

China (24.6%), Russia (20.8%), South Korea (8.9%), and Japan (7.3%) are the top importing countries.

The **volume** of the Republic of Kazakhstan's machine-building market in January-December 2022 was **22,879.1 million US dollars**, with OTP accounting for 13.1% and imported products accounting for 86.9%.

The industry is notable for its high **territorial concentration** in the Kostanay, Akmola, Pavlodar, and Karaganda regions, as well as the cities of Almaty and Nur-Sultan.
